

CTC Calderdale SUNDAY RIDES April - September 2010

Well, my usual comments on the past year's weather, as though you can't remember the lousy summer and worse winter. I started my comments with this last year, and the same applies.

There is the usual variety of rides this summer, generally between 50 and 80 miles. Remember, if you don't want the full day ride just come to morning coffee.

A wide variety of Audax rides on offer this year, starting and finishing with the popular Spring and Autumn rides from Hebden Bridge.

Hopefully we will have two car assisted rides provided we can get sufficient transport, please inform myself or the leaders in advance if you wish to go on these and whether you can assist with transport.

If you read the winter newsletter you would have learned that this year has 12 full moons, guaranteeing a barbecue summer.

Any queries, contact the ride leader, event organiser, or me; a list of telephone numbers is provided.

John Keighley

Easy Rides have quiet routes of up to 40 miles designed by experienced cyclists who lead the rides and ensure that the pace of the ride is moderate and that nobody gets left behind. **Club Rides** are generally

between 60 and 80 miles, with an easy pace that cyclists of moderate experience can cope with. The group aims to stay together the whole of the ride. **Long Rides** are more suitable for cyclists with a little experience: the pace is faster and the distance at least 80 miles and often 100 miles or more in a day.

Standard rides & Audax events offer the chance to ride a set distance inside a set time limit. Events are held at various distances and time limits to suit most people. For more details, see P.11

MEETING POINT DETAILS for all rides Please note that the times given on the rides lists are the times to meet and that the rides should start 15 minutes after this time.

EB = Elland Bridge, by bus shelter on A6025 leading to A629
